

CLOSURE AND DELAY

The Ranches Academy is prepared for the unlikely events in which building systems could malfunction rendering the building unfit for occupation, or for weather which makes it necessary to send children home or to cancel/delay school.

During severe weather and other events, The Ranches Academy will utilize a notification system to notify families of delay and/or closure. Families may also check the school's Facebook page and email. Local radio and TV stations may also announce local school closings or delayed openings.

Please be aware of the variety of weather experienced by the cities our school serves. Weather may be severe in one city and acceptable in Eagle Mountain, or vice versa. Therefore, please listen for The Ranches Academy to be specifically mentioned in a school closure announcement to determine whether or not the school is in operation. The following two alternatives are available for "severe weather" days:

School Cancellation: Notification of school cancellation will be provided through local One Call Now, The Ranches Academy Facebook page, and email.

Delayed Start: A delayed start occurs when the school day begins two hours later than usual (10:00 a.m.). A delayed start will be announced as soon as possible.
