PROPOSED USE OF FUNDS

Below we are asking each LEA to provide an explanation of how the LEA intends to use the ARP ESSER funds in alignment with the allowable use cases described by the U.S. Department of Education. We encourage LEAs to prioritize **evidence-based practices** and call those out in their narrative.

1. UNDERSTAND & ASSESS: Student Academic and Social Emotional Needs

USBE encourages LEAs to complete a needs assessment before determining how their portion of ESSER funds will be used. LEAs should follow existing [needs assessment protocols](#) to determine the most valuable and targeted use of ESSER funds. A needs assessment should include a review of the current state as compared to the desired state, the identification of barriers to reaching the desired state, and an analysis of the potential sources of the identified barriers.

A. **Impacts of COVID-19 on your LEA:** Please describe the areas that have been most impacted by the coronavirus on your LEA. What has been done to determine the strategies that are needed to mitigate the effects of the pandemic? Please provide any baseline data and stakeholder feedback collected to show the impacts of COVID-19.

We have more students who are scoring below and well below proficient on the Acadience reading assessment. These students are also not showing typical growth on Pathways to Progress due to shorter school days during the 2020-21 school year, more home instruction, and mandatory school closures in

the 2019-2020 school year. This lack of instruction during this extended time period caused our students to not meet benchmarks or make the growth they normally would have in a typical school year. Mental health issues have also been an obstacle in many of our students' learning achievements. These issues have resulted in more tardies, leaving early, and absences. Students who may be struggling with anxiety also may have more difficulty focusing and behavioral issues which interfere with learning.

2. DESIGN: LEA ARP ESSER Plan and Aligned Budget

In building budgets, please keep in mind that federal funds should be utilized to supplement your state and local funds. The ARP ESSER budget submitted through the Utah Grants Management System does not have to include state and local funds, but their availability and utilization should be considered the foundation for building recovery and acceleration plans. As you are braiding various state and federal funds, be mindful that some funds expire at different times than others. The increased federal funds will enhance the opportunities that you can offer, but we encourage you to think holistically as you assess your LEA's situation and make plans for academic recovery and acceleration.

A. Plan to Address Accelerated learning: Please provide a narrative response for how your LEA plans to use at least 20 percent of funds to address accelerated learning through the implementation of **evidence-based** interventions (e.g., providing intensive or high-dosage tutoring or accelerating learning), such as summer learning or summer enrichment, extended day, comprehensive after-school programs, or extended school year programs, and ensure that those interventions respond to students' social, emotional, and academic needs and address the disproportionate impact of COVID-19 on underrepresented student subgroups.

The ARP Act defines the term "evidence-based" as having the meaning in section 8101(21) of the ESEA. Accordingly, "evidence-based" includes several tiers of evidence. Specifically, "evidence-based," when used with respect to a State, LEA, or school activity, means an activity, strategy, or intervention that:

- Demonstrates a statistically significant effect on improving student outcomes or other relevant outcomes based on—
 - Strong evidence from at least one well-designed and well-implemented experimental study ("tier 1");
 - Moderate evidence from at least one well-designed and well-implemented quasi-experimental study ("tier 2"); or

- Promising evidence from at least one well-designed and well-implemented correlational study with statistical controls for selection bias (“tier 3”); or
- Demonstrates a rationale based on high-quality research findings or positive evaluation that such activity, strategy, or intervention is likely to improve student outcomes or other relevant outcomes and includes ongoing efforts to examine the effects of such activity, strategy, or intervention (“tier 4”).

Given the novel context created by the COVID-19 pandemic, an activity need not have generated such evidence during the COVID-19 pandemic to be considered evidence-based. The Department’s What Works Clearinghouse (available at <https://ies.ed.gov/ncee/wwc/>) identifies the tier of evidence that reviewed studies meet, as applicable. As part of the “demonstrates a rationale (tier 4)” level of evidence, grantees may develop and use approaches that are novel, if they are consistent with theoretical and empirical findings from research and the grantee will continue to review the effects of the practice to build the evidence base. Developing a logic model can help to demonstrate a rationale. Logic model resources are available at <https://ies.ed.gov/ncee/edlabs/regions/pacific/elm.asp>.

1. Narrative for how your LEA plans use at least 20% of the total ARP ESSER award to address accelerated learning through the implementation of evidence-based outcomes.

Over 40% of the ARP ESSER award will be used to address accelerated learning with the addition of Reading and Math Intervention Teachers for all grades K-6. We have added intervention teachers who each are in the classroom approximately 25 hours a week. Intervention teachers use Foundations, SPIRE, Read Naturally, for Language Arts tier 2 and tier 3. The interventionist will also be in the classroom during tier 1 instruction to help refocus students and help those struggling with guided practice and class participation. The Ranches Academy will use the following evidence based strategies for math: modalities, manipulatives, repeated exposure, one on one tutoring and small group instruction.

Intervention teachers will instruct, collect data, progress monitor, and report to teachers. Teachers will review data and make adjustments for students as needed.

2. Please complete the table below for each of the activities that you will be pursuing to address learning loss.

Evidenced-based Activity Description	Timeframe for Implementation	Estimated Total Budget for Activity	Data Source for Measuring Effect (ex. Attendance, Acadience, RISE, ACT Aspire, local measure, etc.) - Disaggregated by specific student subgroups	Baseline Measure from 2018-2019 or 2019-2020 (as applicable)	Target for measured effect at conclusion of activity
<i>Ex. 3. What is your process for evaluating the success of the above activities and revising your ARP ESSER plan to reflect improvements?

The Ranches Academy staff will use Acadience for progress monitoring in both reading and math. If a student is not making sufficient progress, changes will be made. The changes might be the size of group, program of instruction, amount of time in tutoring, frequency of tutoring, etc. Intervention teachers will meet regularly with the classroom teachers to collaborate and discuss concerns and celebrate successes.

4. **How will the LEA will ensure that the interventions it implements, including but not limited to the interventions under section 2001(e)(1) of the ARP Act to address the academic impact of lost instructional time, will respond to the academic, social, emotional, and mental health needs of all students, and particularly those students disproportionately impacted by the COVID-19 pandemic, including students from low-income families, students of color, English learners, children with disabilities, students experiencing homelessness, children and youth in foster care, and migratory students? USBE encourages LEAs to reference their needs assessment to support their narrative.**

The Ranches Academy focuses on students that placed below and well below proficiency as well as those not making typical growth according to Pathways to Progress in Acadience. The population of students includes those from low-income families, students of color, English learners, children with disabilities, and those disproportionately impacted by the pandemic. The Ranches Academy will monitor every student's growth and adjust the intervention if the student is not making growth and lessening the "COVID gap".

Plan for remainder of funds:

Please provide a narrative response that details your LEA ARP ESSER plan for the remaining funds in alignment with the allowable use cases. We recommend you call out the federal use case language and category number in your response, as well as including your budget narrative from the Utah Grants Management System.

In 2020, The Ranches Academy replaced 17 failing HVAC systems in order to improve air quality and ventilation. We will allocate \$50,350 of the ARP funds to help cover the costs of 8 of these new HVAC systems. This improved the air quality in the classrooms and circulated outside air.

The pandemic put a noticeable strain on our existing technology resources. We continually need additional updated hardware, including iPads and computers. We will allocate \$54,400 of the ARP funds to cover the cost of additional chromebooks purchased to support the learning software and software applications needed for our students. Currently we have one to one technology for every student.

3. Implementation and Policy

1. LEA Safe Return to In-Person Instruction Commitment

An LEA that receives ARP ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of

services by addressing the mitigation strategies described by the federal legislation and interim final rule. Before making the plan publicly available, the LEA must seek public comment on the plan.

We recognize that for most Utah LEAs, schools are already providing this in-person instruction. The requirements outlined below are in compliance with the ARP ESSER award, and should speak to the plans for school in fall 2021. **Please complete the “LEA Response” within the table below for each of the mitigation strategies describing if the LEA has any policies and what those policies are for the given mitigation strategy.**

4. GEPA Section 427 (20 U.S.C. 1228a) Compliance

1. LEA Description of GEPA Compliance

Please describe how the LEA will comply with the requirements of GEPA Section 427 (20 U.S.C. 1228a). Comprehensive GEPA requirements are listed under the assurances section of this document. Your description must include information on the steps the LEA proposes to take to permit students, teachers, and other program beneficiaries to overcome barriers (including barriers based on gender, race, color, national origin, disability, and age) that impede access to, or participation in, the program.

Description of GEPA Compliance:

In accordance with the requirements of Section 427 of the GEPA Public Law, The Ranches Academy will take effective steps to ensure equitable access to, and participation of students, teachers, and other program beneficiaries regardless of gender, race, national origin, color, disability, or age. The following are examples of how the school will comply with the requirement:

The marketing and recruiting plan to be followed in promoting The Ranches Academy will be designed to reach the entire community through different media outlets and community activities and, accordingly, all racial/ethnic groups within it.

To ensure maximum parental involvement, The Ranches Academy will conduct meetings at times that a maximum number of parents can attend.

The Ranches Academy will post materials in locations of public access, including the lobby or common areas, as well as the school website and social media.

Special Education staff will assist in ensuring that accommodations and modifications are made to allow access for persons with disabilities and care will be taken to assure benefits for both male and female participants.

The Ranches Academy has ESL teachers on staff to assist students and families with language barriers.

Our school will use the ARP ESSER funds to address learning loss due to COVID-19 by providing an intervention specialist for each grade and those at higher risk for a learning loss. We will ensure that no student or teacher will be denied participation based on gender, race, national origin, disability or age.
