29	30	<p style="text-align: center;">National Guitar Month</p> <p>The ancestor of the modern guitar was probably first made in 16th-century Spain. The first acoustic guitars made hundreds of years ago had four, as opposed to six, strings. Electric pickups were first added to acoustic guitars in the 1920s. Les Paul invented the first solid-body guitar that, because it had no soundbox, needed an electric amplifier to transmit the sounds of its vibrating strings.</p>
